- No doctors or NP available and not one of the 32 walk-in clinics are taking new patients! So, no health care for many, many thousands of people in this whole region. Disabled parent (legally blind, no doctors, so they can't get the disability forms signed by a GP!) so a legally blind person is without ANY disability supports or disability income too. We can't even get a disability parking permit without a GP Doctor! The MP and MPP have completely failed everyone in this region and are not honestly funding Canadians with the medical care they pay for in their taxes!

- Stable water levels on the St. Lawrence River. Maintaining higher levels into the end of October each year. Start taking recreational use of this waterway seriously as a commodity.
- Townships are killing small businesses in villages settlement areas with Planning and Building Departments excessive use of additional permits and fees created since the pandemic started. Township are being aggressive, and the Mayors and Councils are out of touch with reality, and are no longer even listening to the people they are supposed to serve. Townships Mayors and Councils are ONLY listening to staff who are killing businesses with no internet, and excessive damaging fees, permits, and a utter lack of housing available again due to land Planning and ridiculous issues with red tape hence cost out of control via massive delays, egregious additional fees created, excessive permits, and Building Departments refusing illegally to inspect, and demanding Engineers to do their job and inspect, and write reports all which cost many, many thousands hence costs businesses way too much unfairly as well.
- I've seen growth every year since opening but have not made any money yet. The township has too many permit fees for expansion, does nothing to help businesses exist or grow, does not do the right things to promote tourism or encourage people to spend time in our villages. TLTI is not small business friendly.

#22 continued...

- Too much bureaucracy when trying to add some accommodation.
- As a business owner in the Township of Leeds and the Thousand Islands, I'm disappointed by the lack of recognition that is given to small businesses. I see other neighbouring townships (Rideau Lakes and Front of Yonge) recognizing their small businesses annually with events and awards. To my knowledge, no such events occur in TLTI. While my motivation to be an entrepreneur and to operate a small business is not driven by whether or not I receive awards, holding recognition events is a nice way to thank small businesses for making contributions to the community. Do better TLTI.
- On your Opening page - Gardening/ Landscaping aren't even listed as a business option! Supporting businesses that are providing service or teaching to build sustainable food networks in our communities has to be priority. Planting properties for biodiversity must start happening to ensure pollinators thrive. This survey doesn't address the need for businesses that exist to ensure our sustainability.
- It has been a challenge to assess sales demographics; poor investments on my part for retail end of business. We will be moving to another province in the fall and I would like information regarding new location.
- I am a new sole proprietor and have had a successful launch. My goal at this time is to ensure sustainability and growth in a manageable way
- We need additional businesses in our area to attract tourists.
- We expect to grow. The area we work in (sustainability) is growing exponentially. The sub-area (Circular Economy) likewise. We are a 're-startup' and our challenges right now is that there is more opportunity than we can address, and we are undercapitalized.
