## #9 continued...

- I need grants and there are none for me.
- We are struggling with being able to afford qualified help. Plus, we need to pay back the CEBA that the government provided for us to use during COVID. Due to cost of everything increasing we are increasing in debt and not able to return the money loaned to us without a struggle. Customers are having a hard time paying us as well, because we needed to increase our pricing as well to stay afloat. We have considered selling, but are not to get the money required to cover the debt. We continue to look for places to cut and decrease cost. Well no one told us it would be easy.
- Transportation costs, fuel surcharges, increases in commercial insurance, utilities, etc... there are no breaks for small businesses. We are working extra hard just to make a living. Interest rates are thru the roof, product is difficult to get or non-existing.

- Small business self-employed.
- We are working with apprentices as we can not afford a licensed mechanic. The apprentice program has offered incentives for employers but we have not seen any of it to date.

## #11 What should the region's focus be to address workforce shortages?

Answered: 11

Skipped: 11

- Good communication.
- Training/skills.
- Training work placement.
- Be more welcoming to new Canadians.
- Provide linkages for new residents seeking employment, training options and communications highlighting success stories.

## #11 continued...

- Continue training, awareness and opportunities presented locally. Marketing and promotion of small business.
- Every occupation is vital and important. Just because some jobs are undesirable doesn't mean they aren't worthy or important.
- Encourage employers to Respect for employee. Consider the employer as a supporter rather than a boss and Retention would be higher. Pay weekly rather than bi weekly.
- I do not understand the workforce shortage. Where did the people go? Or is the government supporting these people so they do not want to work? So, I really could not begin to guess how to change this situation.
- Get people off welfare and teach them how to work. Get students in high school out in the community doing things and teaching them skills so they have something on their resume once they graduate. Change your curriculum and bring back the trades, cooking etc. giving certificates etc. Not every parent sends their child to Girl Guides or Scouts so many are missing out on these opportunities.
- Hard for me to say. Based on my own experience looking for work, there's more competition in the positions I've applied to. I, more often than not, don't get call backs after applying to positions that I'm more than qualified for which has led me to believe there are more people looking for work than jobs available.

## #12 What are the 3 top areas of support that would be most helpful to your business right now?

Answered: 16

Skipped: 6

- Fuel costs lowered. x2
- Tax relief. x2
- Interest rate reduction. x2

### Labour

- Labour.
- Employees.
- Lower labour costs.
- Employee retention.

### Advertising/Marketing

- Advertising.
- Media coverage.
- A new method or opportunity to advertise within rural communities that don't have a central plaza or cluster of storefronts.

### Grants

- Grants.
- Support for employee training.
- Financial assistance for those that don't qualify for government grants would be great, if at all possible.

## Digital Support

- Computer, web page and Facebook help.
- Getting a good website up within my school course selection. Online store.

## Loan Repayment

- Repayment of loans.
- The government has given us another year to try to pay them back and if we don't, we can pay back at a 5% interest rate which is far better than the bank will offer us. So, if we could get a 40,000 loan at 5% interest we will be forgiven 20,000 this would take a huge stress from us at any rate, because we will not likely have that amount by the end of the year.

## Other

- Internet.
- Inflation Reduction.
- Economy Stabilization.
- Insurance premium discounts.
- Shop local education.
- Exposure to more tourists.
- Member support for hospitality services.
- Understanding the new government recycling contract will need a lawyer.
- Better centralized networking opportunities (apart from privately-run groups).
- How best to utilize existing resources and making connections easier to support businesses.
- Bringing in skilled immigration that can be a valuable addition to our business retention and expansion.

## #13 What are your expectations for 2023?

Answered: 16

Skipped: 6

### Positive

- Increase revenue.
- Expansion if possible.
- Slight increase in sales.
- To improve membership.
- Back to pre-COVID business.
- Increases in sales for hospitality.
- We hope to offer more attractions to our business.
- Hopefully to improve our income as shows and sales return.
- Strong year. Continued growth and success for our staff, partners, clients.
- My business will continue to expand, expecting a 15% growth. Generally regional economy will struggle due to inflation, labour availability and supply chain issues.

### Neutral

- Business to stay on current course and profits, unless we are able to hire a qualified candidate.

### Negative

- I suspect that we will be at a loss in 2023 unless something amazing happens.
- No crystal ball... it's day-by-day, month-by-month.

## #13 continued...

### Other

- Trying to retire.
- Fields prepped to receive lavender and blueberries.
- I'm working part-time jobs on top of operating my business and expect this will be the new norm.

## #15 Please provide any additional comments related to your business viability and your challenges as a business owner.

Answered: 3

Skipped: 19

- Very important to take things day by day, stay on top of changes and adjust where necessary.
- High taxes, high fuel costs, high insurance costs.
- Personally, my biggest challenge has been relocating to this area and experiencing the decline in local interest and the ability to network. I have not received a warm welcome since moving here because I'm not originally from this area... and this became even more evident in my attempts to network and create alliances. I've taken this as a queue to shift away from focusing on local business because it's no longer sustainable for me.
