 - With Fall Red Tape Package, have already reached \$338 million of our target

Providing Savings for Ontario Small Businesses

¹ Includes Ontario savings from the proposed cut to Ontario's small business Corporate Income Tax rate, paralleling the federal accelerated writeoff measures, and from not paralleling the federal tax increase on some small businesses earning passive investment income. Savings from the accelerated writeoff measures include unincorporated businesses.

Note: Savings from delivering Ontario Corporate Income Tax relief are based on businesses that benefit from the Ontario small business Corporate Income Tax rate. Savings from the other measures are based on firms with less than 100 employees.
